

# Qiskit Localization Onboarding Guide

*Making Qiskit Textbook accessible to everyone*

**#QiskitLocalization**

September, 2022

Localization Core Team: Soolu Thomas, Sophy Shin, Claudia Zendejas-Morales and Yuri Kobayashi

# Why Localization?

**76%**  
of internet users prefer  
to read product  
information in their  
native language.

Data Source: [CSA Research](#)

# More Facts & Figures

**There are 743 million non-native speakers (those who speak English as their second language) in the world.**

**Only 4 percent of the conversations happening in the world involve native English speakers.**

**Even among people with high proficiency in English, 65% prefer content in their native language.**

*Data Source: [CSA Research](#), [Ethnologue](#),*

# Our Mission

**Help make Qiskit  
accessible to non-  
English speaking  
communities**

# About Qiskit Docs Localization Project

Qiskit Docs Localization project aims to help make Qiskit and its related documentation accessible to non-English speaking communities. Clear, readable, easy to understand documentation is key to any adoption of new technology and we do not want language to be the barrier. Through the open-source spirit of our community members, we currently have over 350 volunteer translators representing 22 different languages supported in our localization project.

- **260+** Localization Contributors
- **22** Languages (Bengali, Chinese Simplified, Chinese Traditional, French, Germany, Greek, Hindi, Indonesian, Italian, Japanese, Korean, Malayalam, Marathi, Polish, Portuguese, Russian, Spanish, Swahili, Tamil, Thai, Turkish, Vietnamese) supported (*\*as of Sep 2022*)
- **Two** localization platforms (*Crowdin & GitLocalize*) that streamlines the process

# Qiskit Localization

Qiskit Localization currently has two translation projects:

(1) Qiskit Documentation and (2) Qiskit Textbook (beta) – these projects are managed under a separate project repo on GitHub.

	Qiskit Documentation	Textbook (beta)
Home	<a href="https://qiskit.org/documentation/">https://qiskit.org/documentation/</a>	<a href="https://qiskit.org/learn/">https://qiskit.org/learn/</a>

Translation Tool (Localization Platform)	Crowdine	GitLocalize
How to Join	<a href="https://github.com/qiskit-community/qiskit-translations/blob/master/README.md">https://github.com/qiskit-community/qiskit-translations/blob/master/README.md</a>	<a href="https://github.com/Qiskit/platypus/blob/main/TRANSLATING.md">https://github.com/Qiskit/platypus/blob/main/TRANSLATING.md</a>

**Must sign up to either one or both depending on what project you want to work on.**

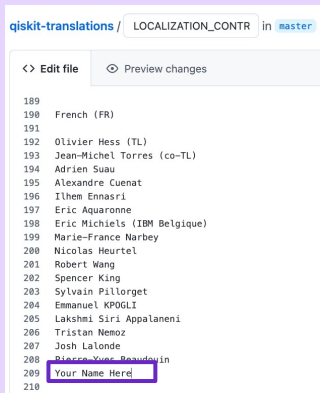

# How to join Documentation Project

# How to join Documentation project

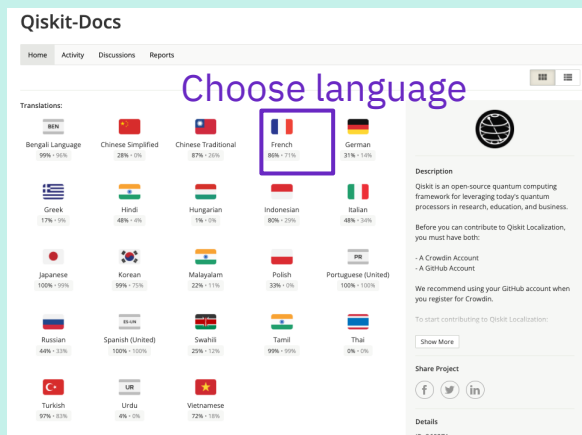

1. Create a pull request (PR) in [this repo](#) by adding your name in [LOCALIZATION\\_CONTRIBUTORS](#).
2. Sign the CLA (Contributors License Agreement) if this is the first time you are contributing to Qiskit.
3. With your GitHub ID, login to [Qiskit-Docs Crowdin](#) and join the language you want to contribute to.
4. Paste the PR url(e.g. <https://github.com/qiskit-community/qiskit-translations/pull/###>)
5. Project admins or translation leads will review/approve/merge your original PR.

Add your name and create a PR

# First time contributing to Qiskit?

If this is your first time contributing to Qiskit or to the Qiskit Textbook Localization project, after opening a Pull Request (PR) to add your name to the LOCALIZATION\_CONTRIBUTOR list, you will be prompted to sign the **Contributor License Agreement (CLA)**.

Click on the CLA link and sign in with GitHub ID to agree

Make sure you see the CLAassistant leave the comment below that you have properly signed the CLA

# How to join Textbook (beta) Project

# How to join Textbook (beta) Project

1. Create a pull request (PR) in [platypus](#) repo by adding your name in LOCALIZATION\_CONTRIBUTOR.
2. Sign the CLA (Contributors License Agreement) if this is the first time you are contributing to Qiskit.
3. Join GitLocalize and leave comment in your PR that you successfully joined (see next slide for details)
4. Once your PR is accepted and merged you will receive notification from GitLocalize.
5. Join project **Qiskit/platypus** and choose your language and start translating.

# Roles & Responsibilities

# Roles & Responsibilities

**Translation Lead** (can also double or triple as translator and proof-reader)

Responsible for overseeing and motivating the team by sharing progress, setting directions, expectations, and recognizing good practices.

**Proof—reader** (can also be a translator)

A proof—reader should be someone who not only is proficient in the language but also has basic knowledge of quantum computing and Qiskit who can make suggestions for quality translations.

**Translator** (which can also double as proof-reader)

A translator must be proficient enough in the language to ensure the text is translated in context of the original source material.

# Translation Lead

**Translation Lead** (can also double as translator or proof-reader)

Responsible for overseeing and motivating the team by sharing progress, setting directions, expectations, and recognizing good practices.

## Main responsibilities

- 1. Qiskit Docs TL Sync:**  
**Join Bi-weekly meetings (every other Tuesday 9:30am EST)** where we share updates, progress, best practices, priorities and relevant topics related to localization.
- 2. Share priorities with your team in your dedicated language slack channel**
- 3. Track progress in our project airtable at least once every two weeks**  
<https://airtable.com/appKYFb9qp6Ac1inz/tblJl2j7Tst77nXY1/viwQbszDehG7EDLaL?blocks=hide>

# Team Collaboration

# Communication Tools

1. Please join **Qiskit Slack** (<https://qiskit.slack.com/ssb/redirect>)
2. Search and join **# qiskit-localization** where you can ask anything related to Qiskit Localization
3. Send your slack handle to @Sophy, @Soolu, or @Yuri Kobayashi via Qiskit Slack
4. We will add you to the  **qiskit-docs-yourlanguage** channel for your team to discuss translations related to your target language

# Contribute and earn your badge

**Apply Here ↓**

**<https://ibm.biz/qiskit-docs>**

You can earn a badge through your localization contributions to the Qiskit and quantum community .

Bronze Level – 5,000 words translated and/or approved

Silver Level - 8,000 words translated and/or approved

Gold Level – 15,000 words translated and/or approved

Platinum Level – 25,000 words translated and/or approved

*Qiskit-Docs Localziation Contributor

# IBM Quantum Community Code of Conduct

In our collective mission to continue to promote and encourage an inclusive and welcoming global quantum community, **The IBM Quantum Community Code of Conduct** is available for download and review [here](#).

We appreciate everyone's support in this mission and ask that any observed code of conduct violations or inappropriate behavior be reported [here](#).

[ [Read Code of Conduct](#) ]

# Translate Responsibly

In addition to the IBM Quantum Community Code of Conduct, the Qiskit Localization Project values the following standards which are applicable in the context of community translation efforts.

## **Examples of translating responsibly:**

- Being mindful of the context when translating (having the original source material available to be referenced frequently is highly recommended).
- Focusing on the quality of translations above quantity
- Engaging in collaboration and valuing opinions and suggestions from other translators
- Using tools such as the [Sphinx editor](#) and [Staging site](#) to check and correct syntax errors before accepting translations

## **Examples of irresponsible acts or translating may include:**

- Copy pasting other's translation work
- Blindly accepting translations without careful quality check
- Abuse of machine translation with no regard to its translation quality
- Other conduct which could be reasonably be considered inappropriate
